Make No Mistake

By dispelling the symptoms so often mistaken for consumption, SANTA ABIE has brought gladness to many a household. By its prompt use for breaking up the cold that too often develops into that fatal disease, thousands can be saved from an untimely grave. You make no mistake by keeping a bottle of this pleasant remedy in a bottle of this pleasest remedy in your house. CALIFORNIA-CAT-R-CURE is equally effective in eradicating all traces of Nasal Catarrh. Both of these wonderful California remedies are sold and warranted by Osburn & Shoemaker, wholesale and retail agents. \$1.00 wholesale and retail agents. \$1.00 a package, 3 for \$2 50.

Acker's Blood Elixir is the only Blood Remedy guaranteed. It is a positive cure for Ulcers, Eruptions, or Syphilitic Pois-oning. It purifies the whole system, and banishes all Rheumatic and Neu-ralgie pains. We guarantee it.

That the Secretary of War is hereby authorized to detail three Army officers to assist him in examining and reporting upon the claims of the States and Territories named in the Act of June twenty-seven, eighteen hundred and eighty-two, chapter two hundred and forty-one, of the laws of the Forty-seventh Congress; and also those arising under the Act approved July twenty-seven, eighteen hundred and sixty-one, chapter twenty-one of the laws of the Thirty-seventh Congress; and such officers before entering upon said duties shall take and subscribe an oath that they will carefully examine said claims and that they will to the best of their ability make a just and impartial statement thereof as required by said Acts."

And at the end of the aforesaid Act, approved June twenty-seventh, eighters had read and eighty-two.

And at the end of the aforesaid Act, approved June twenty-seventh, eightteen hundred and eighty-two, add the following as section six thereof:

"Sec. 6. The aforesaid Act of June twenty-seventh, eighteen hundred and eighty-two, shall include all claims against the United States by the several States and Territories therein named, and also those by the people thereof, respectively, on account of the several matters therein set forth, whether the same arcse prior or subwhether the same arcse prior or sub-sequent to the several dates mentioned in the aforesaid Act, and which have not heretofore been provided for by

A WASHINGTON correspondent says there are upwards of thirty public buildings now under way, or about to be started by the Government. Complaints have been made by the new Supervising Architect that several of the buildings being constructed are not what they should be. The public building at St. Joseph, Me., settled during the month of Nevember four and onehalf inches. The building is completed as far as the third story, and has cost thus far \$100,000. Mr. Freret, the Supervising Architect, says that the building will necessarily have to be taken down and rebuilt. The public building at Council Bluffs, Iowa, has settled two inches within the past month and a half, and there is considerable an old time resident of Silver City and a native of Obio, died Wednesis made in regard to the public building at Quincy, Illinois, and work there has been ordered stopped. At present Mr. Freret's problem is not ow to start and build new buildings so much as to know how to save those that have been badly started. The difficulty in the cases mentioned, he says, is due largely to the haste with which contracts were let. It is to be hoped that when the building at Carson will be commenced it will be done so carefully and workmanlike that no fault will be found with its founda-

THE State Treasurer of California had his breath taken, the other day, when a legal gentleman from Cincinnati, stepped into the surer's office at Sacramento, and demanded \$290,000. The Treasurer asked upon what authority such a demand was made, when the claimant exhibited a package of State bonds issued in 1869 by Sutter ounty leves district, calling for that sum of money. He further ex-plained these bonds were owned by rsons in Cincinnati who had sent him to collect them. Upon investigation the Treasurer found that ch bonds had been issued, but only eight dollars were in the fund m them, and that provision for their payment and redemption had been wholly overlooked all the years since their issuance. Had such a thing occurred in Nevada one can easily imagine the per-turbed condition Uncle George Tufly's three hundred and fifty pounds of meat would have been in. The Capitol building would have been shaken as though by an earth-

THE Silver State doesn't take kindly to Judge Wells' open letter to Senator Stewart on the confirmation of Secretary Lamar, as Associate Justice of the United States Supreme Court, and says some very unkind things of the Governor's Private Secretary. If Judge Wells is given the opportunity by the papers of Carson, he will come as near defending his position in print as any man in the State.

THE Carson Tribune says: "The general feeling seems to be that the small-pox is likely to become epidemic, for reports are spread that the miserable disease is prevailing In Storey county, but is kept quiet." It is such statements as the above which hurt a town or locality, although it is only given as a prove it. The following is the full rumor. Facts, and not rumors, should be given in cases of this kind.

> ONE of the strong arguments made by the Republican side of Congress on confirming Lamar, is that in any event an ex-Confederate must have the place. Therefore, it is better to take Lamar, who is already an old man, than some healthy young Southerner, who could stay on the bench long enough to become a part of a State's rights majority of Justices.

THE lens for the great Lick telescope is ready for adjustment, and as soon as the weather becomes clear enough around Mount Hamilton it will be done. The placing in position of this wonderful telescope will give renewed interest to astronomy on this coast, and already an astronomical craze has attacked the people of San Jose.

THE pugilists, Sullivan, Kilrain, Mitchell and others, are still filling the telegraphic columns with a lot of bosh of what they have done and intend doing to each other. The public are tired of it. They should either fight or stop blatherskiting.

From C. W. Booton, who returned from the East this week, the GA-ZETTE learns that the McKissick opera-house will be opened to the public about May 1. During his absence Mr. Beoton contracted for the opera chairs, scenery, and paraphernalia necessary for a first-class house, the amount expended being over \$4,000. On the date mentioned the house will be opened with a strong attraction, and every effort will be made to make it a red-letter day in the history of Newada the day in the history of Nevada the-atricals.

Railroad Progress North From a party just in from the northern country the GAZETTE learns that notwithstanding the inclement weather of the past week some progress is being made in the construction of the Nevada & Callfornia railroad. The road from its terminus, 37 miles from Reng, is being extended ateadily to Boifing Springs, on the south side of Honey Lake, via Susanville. It is thought that the road will be completed and in running order by next Summer.

A Favorite of Fortune.

Jacob McKissick, the well-known tockman, is the owner of farms in Iowa, Missouri and Nebraska, and derives an income of over \$7,000 a year from his interests there. He leases his farms on shares, and the past season has been remarkably fortunate. Corn is the principal staple grown, and sold this year for 40 cents a bushel, against 21 cents last year, which is the principal reason for Uncle Jake's contented stock.

Seeds for Nevada,

The following self-explanatory letter dated Washington, December 29, 1887, has been received at this office:

EDITOR GAZETTE—The Agricultural Department has a great variety of seeds for distribution, a considerable portion of which are apportioned to each Senator and Representative. I desire to send what I have and what I can progue to such persons a will desire to send what I have and what I can procure to such persons as will use them, either in cultivating crops (such as it is already known can be successfully raised in Nevads), or for experimenting as to what varieties of crops can be produced with our climate and soil. All persons desiring seeds, or who are willing to experiment, will confer a favor on me if they will write and let their wants be known. The delegation from Nevada would be able to supply all of our constituents who are engaged in the business of agriculture, gardening or fruit raising, with sufficient seeds to commence raising every variety of fruits and vegetables that could be produced in the State if they knew to whom to send them so as not to have them wasted.

Yours truly,

WM. M. STEWART.

Bright's disease and diabetes in the chronic stage are rarely cured, and gravel, catarrh of the bladder and enursis, slay many. Yet at the cutset, when the trouble merely amounts to inactivity of the organs involved, the droger may be nullified by that pleasant renal tonic and diuretic, Hostetter's Stomach Bitters, which imparts the requisite amount of tone to the organs, without over-exciting them, and the use of which is convenient, and involves no elaborate preparation. Dyspepsia, a usual c neomitant of rensi complaints and debility, which they invariably produce, are remedied by it. So also are constipation, malarial, rheumatic

The Pest-House Condemned. The Grand Jury yesterday made

a partial report, in which it condemns the present location of the pet-house, and recommends that the second ravine near McKissick's place, north of Reno, be selected as suitable location for the erection of such a building. The recommendation is a good one, as the pest-house, in its present location, would, in case of an outbreak of small-pox, be a constant menace to the health of the town. As now situated it is within 99 feet of the cemetery, 1,200 feet from the State University, and but 3,000 feet from the center of town.

Nothing has created so much talk as Breuner's elegant and immense line of Bedroom and Parlor Furniture. Suites for two, three, four, five and six hundred dollars. We can furnish you with a suite four, five and six hundred dollars. We can furnish you with a suite—the finest in the land or the cheapest to be had. Our trade has demanded that we carry the richest lines, and to-day we are shipping goods to San Francisco, Oakland and other parts of the State. San Francisco merchants cannot compete with ūs, as their store rents and other expenses are enormously high. Everybody admits that we sell the cheapest, and everyone who visits our stores says our assortment is as elegant as it is large.

If you desire anything in our line and cannot visit our stores, write us stating articles you want and will send you photographs and prices, and give you the same satisfaction as if you were selecting in our stores. Send for photograph of our \$20.00 bedroom suite.

\$50,000 Mrs. Howard offers her ranch is on the Virginia road, the most delightful of all the country roads in New York. It is leasted eight miles from Rene and in a fertile agricultural section. The ranch consists of about \$60 acres and a valuable water right. The ranch has long had the reputation of being one of the most productive of its size of all the ranches in the Truckee Meadows. This year it has produced \$80 tons of hay, pasture for 200 head of sock, yegetables and other products in value about \$9,000. By the expenditure of a few hundred dollars the ranch could be made to be even much more productive than it is at present. The soil is admirably adapted to the raising of alfalfa, stock and vegetables. It has an ercellent house, barn and other buildings, a good orchard and other improvements. Proc. \$30,001; 3/c. cash and the remainder in five equal annual installments. Interest at 8 per cent, per annum.

INFANTILE SKIN DISEASES

Our eldest child, now six years of age, when an infant six months old was atta-ked with a virulent, malignant skin disease. All ordinary remedies failing, we called our lamily phylcian, who attempt do cure it; but it spread with almost incredible rapidity, until the lower portion of the little fellow's person, from the middle of his back down to his knees, was one solid rash, ugly, painful, bloto-ed, and maliciou. We had no rest at night, in peace by day. Finally, we were advised to try the CUTICHAR REMEDIES. The effect was simply marvelous. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my oplaina your valuable remedies saved his life, and to-day he is a strong, healthy child, perfectly well, no repetition of the disease having ever occurred.
